Feeder Cattle Weighted Average Report for 10/04/2010

Receipts: 1781 Two Weeks Ago: 1530

Compared to two weeks ago, calf prices were mixed, depending on how long they were weaned and if they had their shots as we all know that becomes more important this time of year with cold nights and warmer days. The yearling market on Monday was not fully comparable to two weeks ago, however it was noticeable higher in the weights that lined up. Demand was very good on the yearlings as they become harder to come by. Moderate to heavy supply of cattle on Monday even with it being ideal right now to harvest beans and corn. Receipts this week included 32 percent feeder cattle over 600 lbs; 62 percent of the feeders were strrs and 37 percent were hfrs.
